Nashville, TN 37243-1534

**SUBJECT: Nashville Terminal - Change of Name/Ownership
General Stormwater Multi-Sector Permit for Industrial Activities
TNR053661 & Discharges of Hydrostatic Test Water TNG670062**

Dear Mr. McAdoo:

In letters to the Tennessee Department of Environment and Conservation ("TDEC") dated October 15, 2012, Blanchard Terminal Company LLC ("Blanchard") notified TDEC that Marathon Petroleum Company LP ("MPC") and BP Products North America Inc. ("BP Products") had entered into an agreement for, among other things, the sale of the Texas City Refinery and four petroleum products terminals (the "Transaction"). The Transaction included the Nashville Terminal, located at 1409 51st Avenue North, Nashville, Tennessee, 37209, for which BP Products has obtained coverage under the State of Tennessee Stormwater Multi-Sector Permit for Industrial Activities, Permit No. TNR053661 and General NPDES Permit for Discharges of Hydrostatic Test Water, Permit No. TNG670062 ("Permits").

In an email dated November 8, 2012, you indicated that TDEC will complete the transfer process for the Permits once you receive notice that the Transaction has occurred. This letter is to serve notice to the TDEC that the Transaction closed today, February 1, 2013. Blanchard respectfully requests that TDEC approve the use of the Permits for the Nashville Terminal under a new facility identification number in Blanchard's name with an effective date of today, February 1, 2013. BP Products will submit notification to terminate coverage for the Permits in separate letters to TDEC.

Accordingly, the new owner and permittee of the terminal is Blanchard Terminal Company LLC, a subsidiary of MPC, whose corporate office is located at 539 South Main Street, Findlay, Ohio 45840 and the new facility name is "Blanchard Terminal Company LLC – Nashville Terminal."
